AGITA™
1 GB

Dosage form: Bait.

Presentation: 400 g HDPE tubs.

Composition: Thiamethoxam (neonicotinoid) 10 g/kg, (Z) 9-Tricosene 1 g/kg.

Storage instructions: Store below 30 °C.

Indication:

Adult fly control. A ready-to-use granular bait containing a stomach and contact poison as well as a fly sex attractant.

Warnings:

- Store in original container and do not keep or apply where food or feed may become contaminated.
- Toxic to bees.
- Keep out of reach of children, uninformed persons and animals.
- Keep container tightly closed between use to maintain strength of attractant.

Precautions:

- Wear rubber gloves when applying. In case of accidental contact, remove contaminated clothing and wash skin thoroughly with soap and water.
- Do not eat, drink or smoke during application.
- Destroy empty container by perforation and flattening.
- Never re-use empty container for any other purpose.
- Prevent contamination of feed, feedstuffs, eating utensils and drinking water.

Directions for use: Use only as directed.

AGITA™ Granular Fly Bait is suitable for use in stables, poultry houses, pigsties, dairies and other farm buildings where flies are a nuisance and a health hazard. **AGITA™** Granular Fly Bait should only be applied as dry bait.

1. Place a very thin layer in shallow containers, where flies usually congregate, in places inaccessible to children and animals.
2. Scatter **AGITA™** Granular Fly Bait very lightly, using 200 g per 100 m² of ground surface on areas frequented by flies, e.g. in and around animal housing, floors, alleyways, window sills, manure heaps, etc. Scatter **AGITA™** Granular Fly Bait in such a way that animals will not come in contact with granules and their feed and drinking water does not become contaminated.
3. Repeat when the bait has been eaten, covered with dust or dead flies or when the old bait has dissolved or dispersed.
